

Sannidhi ART PRINTERS

Printing People

Our custom quotes will get
You the best deal without
compromising quality

Vision

To be the acknowledged leader in printing through consistent improvement in quality and maintain that position through results.

Mission

To recognize the customers' right to quality, service, timely delivery and cost and to ensure maximum satisfaction to the clients.

Printing is a medium that holds up a mirror to real life. New technology is making it possible for us to evoke almost all the five senses of man through print. You can touch and feel. You can scratch and read. Technology is minimizing the need for words and instead letting the print experience speak for itself.

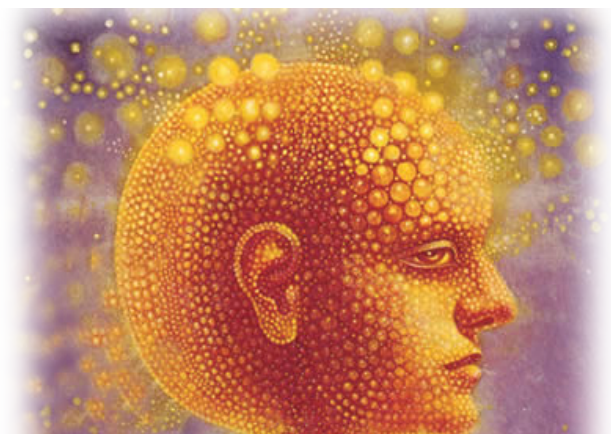

Sannidhi Art Printers is a high quality processing and printing house with the reputation of producing the best-printed and processing materials in Hyderabad. Our attempt in printing is to get as close to the real as possible.

Every morning we start the day with the reassuring clackety-clack sound of rolling presses and the smell of printer's inks. High-speed machines, rubber blankets, tons and tons of paper 15,000 impressions per hour- stuff like this has kept us going.

With times changing across the world the boundaries are blurring. Creativity and innovation requires some thinking outside the box and we believe that we have been doing it the right way for the past many years. We offer competitive pricing and world-class quality.

Ideal Outsourcing Destination

Hyderabad is a city of minarets, steeped in history and straddling the future the history of the city lives in its rich cultural heritage, its monuments and wealth of traditional art and architecture. The old world charm combines with the magnetic pull of the new age attractions making the city a unique blend of the old and the red hot new. The profile of the city is changing at a scorching pace. From a city with a laid back attitude it has changed into a city that keeps two steps ahead of the rest. The city is well connected to all parts of the world with an international airport making it an ideal and affordable outsourcing destination.

Promoters

J.Anand Reddy, Managing Director and J. Sylvia Reddy, Executive Director have a great passion for quality processing and printing. With deep knowledge and understanding the technology, combined with hands-on work experience at the shop floor level, they have transformed a dream into reality.

The basic reason behind the success of Sannidhi Art Printers is that we listen to our customers' queries and provide solutions and practical suggestions to achieve results.

Today Sannidhi Art Printers has clients from different parts of the country. Our professional workforce is our asset and has won strong appreciation of clients. In short, every aspect of the Sannidhi Art Printers business exudes professionalism, progress, quality, trust and loyalty.

Sannidhi Art Printers has a fully equipped Pre Press and Printing Department that can handle text and pictures at all stages of a project to suit clientele requirements.

Features like image manipulation, placement of pictures, retouching are carried out on Mac and IBM computer systems. Our skilled operators have the ability to achieve the desired effect viz., change of backgrounds and colours, transform photographs, remove blemishes or unwanted details at a lightening pace so as to enhance the quality of the final printed output.

Quality & Goodness since 1953

Our Work Portfolio

We undertake overall management for book publishing jobs converting raw manuscript into printable pdf format. We could also undertake printing of the books from our high quality printing facility. We take raw copy and, if required, supply printed books of journals in addition to electronic formats.

Our Designing Studio addresses the requirements of end-to-end designing solutions for Books, Manuals, Journals, Dictionaries, Encyclopedias, Reference Works, Cartons, Leaflets, Brochures, Logo Creation, Posters, Annual Reports, Magazines, Calendars, Banners, Hoardings and all type of Packaging works.

From initial concept to the final product, we formulate design concepts, revise quickly and professionally to progress, and finalize the 'document before publication. We have the expertise and equipment to scan, which may involve relabelling and redrawing of the highest standard.
